Descriptions

- Using an electronic micro camera, you can observe the entire process of earwax in real time on a 4.3-inch HD display with a Type-c cable.
- Ultra-small lens, 1080P HD pixels, easy to operate, plug and play, easy to enter the ear canal, see more clearly.
- Medical endoscopes are near-focus products that can be very blurry when the shooting distance is too close or too far. The best focal length is about 1.4-2 cm. The farther away from the viewing distance, the lower the sharpness of the image.
- Multi-functional, it can not only check the ear canal, but also check the eardrum, mouth, gums, throat, nose, hair roots and other body parts.

The latest high quality visual otoscope

4.3-inch 1080P high-definition display, ultra-fine data line transmission, plug and play, easy to operate.
