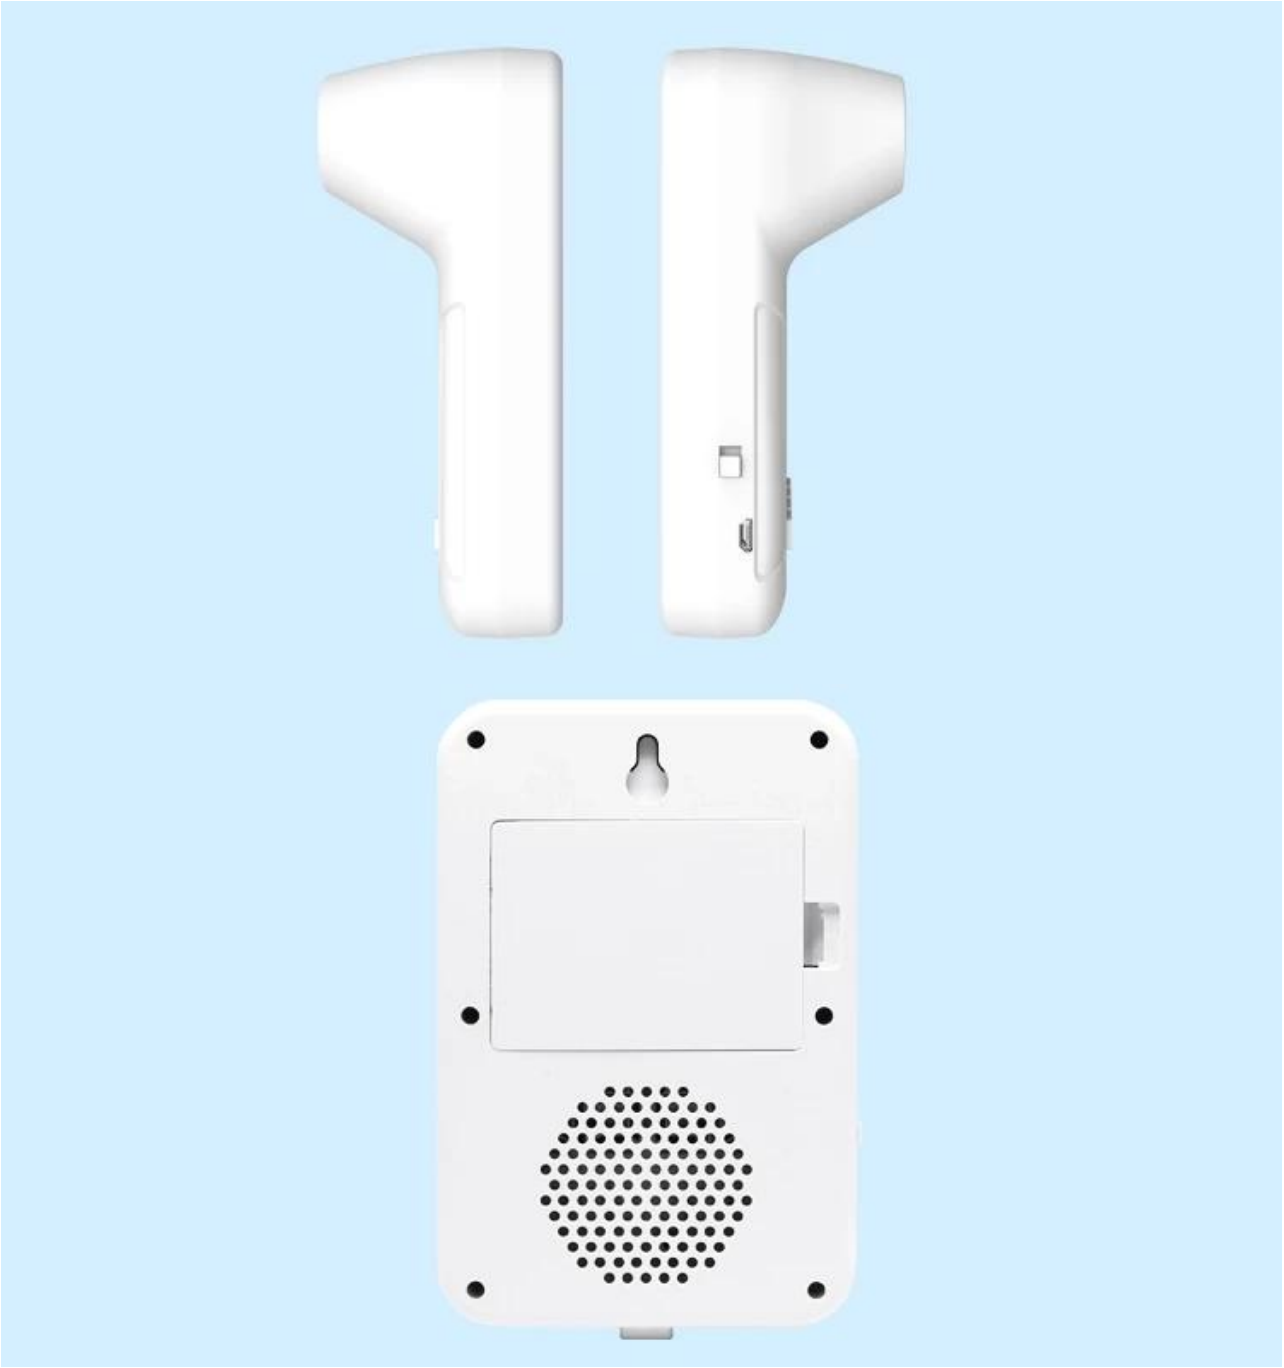
Non-contact hanging Infrared thermometer wall-mounted automatic temperature recorder Human Body Thermometer

Temperature measurement range: 32~43℃
Resolution: HD
Display mode: digital display
Measuring distance: 1-10cm
Measurement accuracy: ±0.2℃
Measuring time: 0.5 seconds
Warning method: flashing lights and sounds
Input power: 5V1A
Response time: 0.1S
Battery standby time: about 7 days
Installation method: wall or bracket
Automatic disconnection: about 8 seconds
Unit of measurement: Celsius/Fahrenheit
Standard configuration: thermometer + USB cable + manual + packaging (without battery)
Support export: Germany, the United States, the United Kingdom, Dubai and other countries
Power supply: DC 5V (3 AAA batteries) or 18650 batteries or USB plug-in



Product size: 147 * 98 * 62mm
Net weight: 230g

Box gauge: 60 pcs/box 62.9 * 31.5 * 33.5CM
