Item Pictures

# **Application examples**

### Material

The W5 body is adapt environment friendly PC/ABS material, UV surface handing. From the beginning of design, we take everything into consideration: fine properties, fashion appearance, remarkable optical functions. Everything gets balance to produce such a smart and beautiful WiFi microscope.

## 8 LED lights

W5 even works excellently on dark environment, thanks for 8 LED lightings .

### Battery slot

W5 is more facilitate with open battery slot for changing battery easily, standard battery is 3.7V, 600 mAH, support long time working.

# Adapter

Specialized adapter for different usages and industries

# Thoughtful carry pouch

Waterproof and practical carry pouch, always facilitate your life.
