

## Wireless / wifi router easy install on wall socket hole suitable WIFI-01/150A

### Description:

When our region there is an obstacle or a barrier wall, it can be mounted directly on the wall, to replace the original wall outlet, enabling wireless signal each location to be strengthened.

## Specification:

Input:AC 100-240V

Power: Less than 5W

Wireless transmission range:150M

Frequency range: 2.4G-2.84G Hz

Antenna:Built-in omnidirectional 3dB antenna

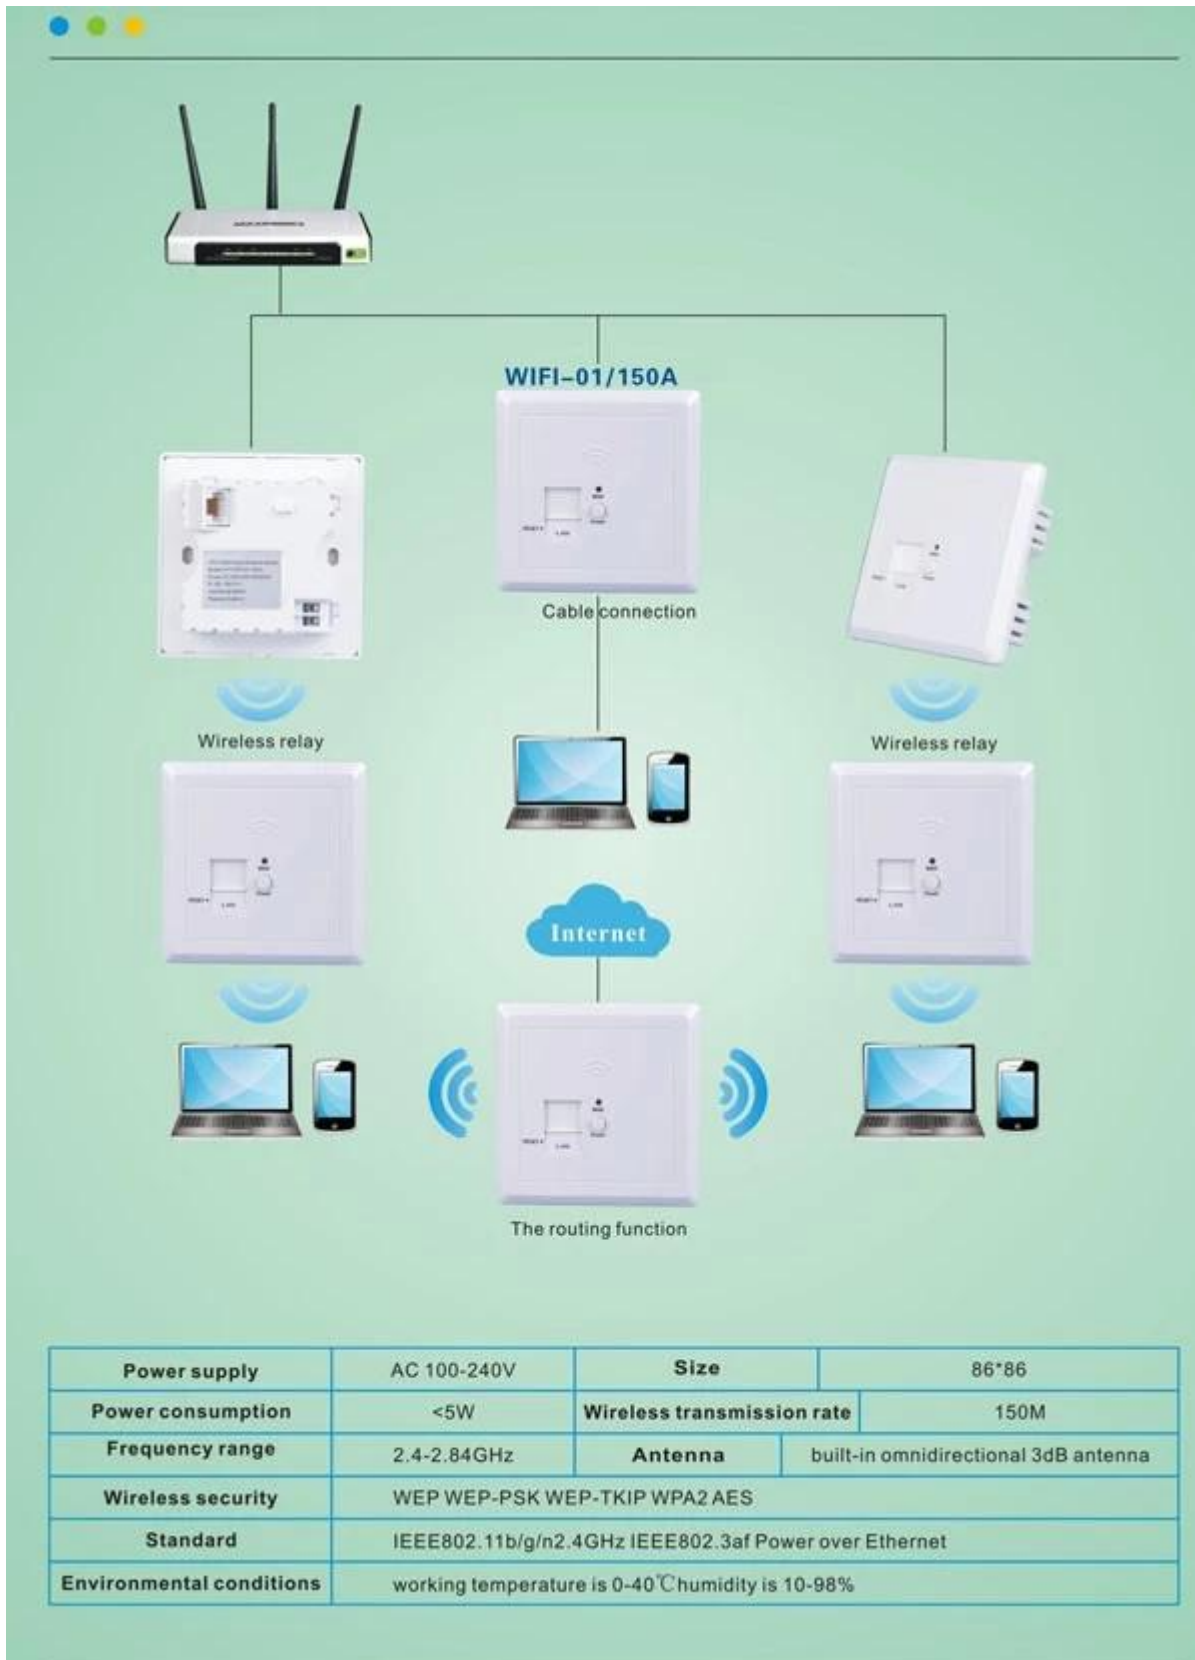

Wireless security: IEEE802.11b/g/n 2.4GHz IEEE802.3af Power over Ethernet

Environmental conditions: 0-40 degree C

10%-98% RH

Size: 86\*86mm

Color: White

<b>Power supply</b>	AC 100-240V	<b>Size</b>	86*86
<b>Power consumption</b>	<5W	<b>Wireless transmission rate</b>	150M
<b>Frequency range</b>	2.4-2.84GHz	<b>Antenna</b>	built-in omnidirectional 3dB antenna
<b>Wireless security</b>	WEP WEP-PSK WEP-TKIP WPA2 AES		
<b>Standard</b>	IEEE802.11b/g/n 2.4GHz IEEE802.3af Power over Ethernet		
<b>Environmental conditions</b>	working temperature is 0-40℃ humidity is 10-98%		

## Packing:

\* 1 pcs/PE bag

\* 200 pcs/Carton: 38\*38\*32 cm
